CALL HILL INTO COUNCIL. VATIONAL DEMOCRATS PULL AT NEW YORK'S HARD KNOTS.

Croker and Hill Looking at Next Year as Well as This-Hill Men Say He Con Control the Convention-The "Combine" Laugh-Coler That was an interesting conference of Demo-

crats which began at the Hoffman House yesterday morning at 9 o'clock on the arof ex-Senator David B. Hill from Normandie-by-the-Sea. Phose who particthe politi at contab besides Mr. Hill were Chairman James K. Jones of the Democratic National Committee, James M. Guffe , National Committeeman for Pennsylvania; ex-Gov. William J. Stone, National Committeeman for Missouri; Norman E. Mack, National Committeeman for New York; Urey Wodson, National Committeeman for Kentucky, and Frank Campbell, C ai man of the Democratic State Committee of New York. Mr. Campuell had been down to Normandieby-the-S a a number of times within the ten days to confer with Mr Hill ! to calling together the Democratic State Committee to fix time and place for the State Convention. There has been no hurry on the part of Mr. Hill or Mr. Campbell about calling the meeting of the State Committee. Some of the anti-Hill Democrats who were at Some of the anti-Hill Democrats who were at the Hoffman House said that Mr. Hill was acting very strangely and her even deciared that since his rearra from kansas tity he has ad ised Democratic a pirants for those on the state ticket this fall to hold off and reluse nominations and not be tothered with the campaign in the State tois year. The anti-nill Democrats, who, ractically have in the Democratic Club in Fifth avenue, do not hesitate to deciare that Mr. Hill was engaged in a great conspirac, at Kansas tity. One of these Democrats, who is very close to Mr. Croker, said yesterday:

"Mr. thil went to visit Mr. Bryan at Lincoln. When he returned to Kansas City we all knew that he was mightily optiosed to a specific defarition in avor of the five coinage of silver at 16 to 1. He wanted to get up a fight in the convention in favor of a mere readination of the Chicago partition of 1896. Altot us Democrats were fold that if Mr. Hill could get up this fight and win 1 he believed that he could be ministed by the convention for President, for all the delegates knew that Mr. Bryan would not accept a nordination on any platform which did not have in it the specific declaration in favor of the free coinage of silver at 16 to 1."

Those who participated in the conference vesterday discussed the possibilities in New York State this fail, the chalces in the middle Wes ein States, the violent quarret in the Empire State etween the Hill and auti-fill forces, and the desirability of planning a campaign in New York State outries the month of October, with Bryan as the calef attraction at dilil to accompany him in a speaking tour. Every effort will be made to arrange this October programme for Bryan and Hill. Chairman Jones after the conference depreted for Elberon, where he is to be the guest over Sunday of ex-Senator Edward Lurphy, J. Richard Croker will also meet Chairman Jones after the conference depreted to Normande-by-the-Sea. He expects to remain there this week. After the conference the situation was identical with that of Friday; their is, what is known as the anti-Hill "combine" in the State, consisting of Mr. Croker, Mr. Mirphy, Mr. McLaughin's lieutenants and Mr. Mack of Erie county, maintained that Comptroller Coler would be the strongest consider, for the Democratis to reconsider.

He has repeatedly said that under no circumstances would he be a candidate for Governor this year and it was said for him last highly one of his tersonal friends that neither wild he be a candidate next year for Mayor. Mr. Coler's father greatly desires him to return to private business and to attend to the affairs of the banking house of W. N. Coler's Co. However this may be the politicians stick to their opinions. Democrats are di cussing the flight for supremacy in the Ninth Assembly district between John G. Sheehan and Thomas F. Smith, private secretary to Richard Croker. This fight is said to be merely the entering wedge of a movement that Sheehan and Thomas F. Smith, private secretary to Richard Croker. This fight is said to be merely to Richard Croker. This fight is said to be merely the entering weage of a movement which will especially be develosed after the Presidential and Givenratorial compagns this fall. Mr. Hill and Mr. Coler, it is averred by Democrats who say they are connectent to speak, are behind John C. Sheehan, and Mr. Sheehan within the last few days has instructed all of his lieutenants to tell the voters of the district that the fight in his balliwick is one made on him by Mr. Croker and Mr. Croker alone. In other word, all of Mr. Sheehan's lieutenants in the Ninth district are going about from block to block and shouting "Croker is making this war on Sheehan. Smith is merely a tool." Then these Sheehan men dish up Richard Croker in thirteen differentialized ways and more if necessary.

Mr. Croker is aware of the meaning of the fight in the Ninth. The interroretation put upon it is that Mr. Sheehan merel represents Mr. Hill and Mr. Coler in the starting of an anti-Tammany organization which is to be a potent factor in naming the candidate for Malor of New York city next year who is to oppose the candidate named by Tammany Hall. One notalle instance is the full reliabilitation of James J. Martin in the councils of Tammany. Mr. Martin has always been known as one of the studiest and most efficient men in the Wigwam. When Mr. Croker arrived in New York city in 1837 some of the Trammany Hall men close to their chieftan reddled stories about Mr. Martin's loyalty, and it appears that Mr. Croker for a time believed them. Yet at no time and Mr. Croker attempt to interfere with Mr. Martin in the leadership of his district, but when they met they talked entirely on affairs connected with Tammany Hall. Before that they had been on the most intimate terms. A little over a year ago Mr. Croker, it was made known, desired Mr. Martin to take the place of Commissioner of Juross, and when Augustus Peters died Mr. Croker believed that Mr. Martin should be made President of the Borough of Manhartan, Mr. Martin declined both of these places, not in a spirit of pique, but for personal reasons. Federal Injunction Feared on I lection Day -Leaders Say It "Wont Go."

WILMINGTON, N. C., July 28.—There are just four days now before the constitutional franchise is passed upon at the general State elections and the interest and anxiety intensifies with each day. Thus far, with all the Red-S' irt demorstrations and apparently impending clashes between factions and races, no serious and Hill Behind John C. Sheehan's Fight. trouble has yet developed anywhere, and politicians, in discussing the situation to-night, express the opinion that there will be none unless some move is made by the anti-amendment leaders, Senator Butier and others, on the eve or morning of the election to block the election by injunction or otherwise. This is the chief cause of apprehension. If the election is not blocked and proceeds regularly the majority for the ratification of the franchise amendment is estimated by leaders here at anywhere from 40,000 to 50,000. On the other hand, if there is interference by Butler and his followers, either by injunction or otherwise, it is probable that there will be bloodshed in many parts of the State, especially in the east, as the white supremacy supporters would brook no interference, not even injunctions from the United States Courts.

This is the move that the Democratic campaign leaders are apprehensive will be sprung on them at the last minute. It is to be ready for any such movement that the Legislature is to convene to-morrow, and will then, according to the present programme, adjourn from day to day until the election is held on Aug. 2d. New Hanover county is sure to give not less than 3,000 majority for the amendment. In fact, every county in East Carolina, except possibly Brunswick, is conceded to have good majorities of registered voters for the amendment. The campaign in this region will be closed Tuesday night with speeches in the city by John D. Bellamy and A. M. Waddell, leader of the memorable "revolution" here in '98.

ENGLAND'S WAR LESSONS.

SOME PLAIN TALK NOW ABOUT THE ARMY'S RECORD IN SOUTH AFRICA.

Comment on Number of Unwounded Men Who Surrendered and Number of British Guns Captured-Speeches of Warning-Government Decides on Elections in the Autumn.

Special Cable Despatch to THE SUN. LONDON, July 28.-If the British people had in connection with South Africa and China, the country would surely be in the throes of a great scare to-day. Last May Lord Salisbury need that England be prepared for war, even to the extent of readiness to reinvasion. Last night, as already cabled, when pressed to make a further statement on the subject, the Premier lost his temper, contradicted himself, and vainly endeavored to persuade the House of Lords that all was well; but Lord Rosebery, who ought to be as good a judge of the international situation as Lord Salisbury, insisted that the Premier was altogether too optimistic, and that the situation at this moment justified the latter's former pessimism.

It is not surprising that the Government has decided on a general election in the autumn. will want to feel secure. They are credited with the intention of proposing to a new parliament a scheme of obligatory military service on Continental lines, and this rumor may well be a true forecast of their design. Despite the patriotic fervor aroused by the war in South Africa in its earliest days the response of the volunteer army to the Government appeals has been disappointing, a fact now scarcely denied in high quarters.

The general inquiry into the conduct of the war promised in the House of Commons last night will also show that the quality of the volunteer troops was not what was expected. The same may be said of many of the regular troops and the militia, but Sir Charles Dilke is the first public man of any standing to make such an unpopular suggestion. When he spoke in the House of Commons of the unprecedentedly large numbers of unwounded British solders who in this war have sustendered and the appalling number of guns captured, he merely voiced what statesmen, politicians and soldiers have been saying in private almost since the war

began. The opposition newspapers have been making desperate efforts to show that a general election late in the autumn with a war still unfinished is contrary to the unwritten Constitution and in the circumstances absolutely dihonorable, but this deceives nobody. The fact is, of course, that the Ministerialists will win hands down. The most modest Tory estimate now puts the Government majority at the comfortable level of one hundred.

DE WET THE CHIEF FOE NOW. Rumor That He Is Ready to Sarrender, but Roberts Wont Make Terms.

Special Cable Despatch to THE SUN. LONDON, July 28.-The situation in South Africa is somewhat cleared up by Gen. Lord Roberts's despatch of yesterday. He is mov-ing east with his customary rapidity and has scattered Gen. Botha's forces before him, but he has been unable to come into action. His mention of the men's sufferings from exposure and the great mortality among his transport animals, which is likely to increase in geometrical progression in proportion to the length and spead of the march, gives rise to fears that Gen. Roberts, on that account, will be unable to push the pursuit to a definite result. Meanwhile the Boers have destroyed the railway between Bronkhor's Spruit and Balmoral and it is reported that all commandos have been ordered to attack only small parties. In the Orange River Colony, Gen. DeWet, with a larger torce than was originally supposed and though strongly posted near Ritzville, is said to be ready to surrender if placed in a position where he must fight. A press agency despatch states that he has already offered to surrender on condition that his men be allowed to return to their homes, but that

by numerous Generals' forces, has shown such skill in evading every one, that until he is actually trapped or has surrendered little faith will be put in premature prophecies. Gen. Carrington's force, which is reported fighting, is a portion of that which after pushing on to reenforce Gen. Plumer has been under Gen. Baden-Powell in the neighborhood of Rustenburg, where sharp fighting is

expected.

Gen. Roberts has insisted on unconditional

surrender. Gen. DeWet, however, though

often "routed" by Gen. Methuen and surrounded

Everything points to a continuation of considerable guerrilla warfare, Gen. Roberts's difficulties to the east of Pretoria make the capture of Gen. DeWet a most desirable event in view of putting something live an end to real hostilities, as this, it is considered, would influence Gen. Botha to surrender, Gen. DeWet is now a greater figure than Kruger as an opponent of British arms and policy. A despatch from Durban, Natal, says nearly one hundred colonial rebels are awaiting trial and it is expected that several hundred more

will be brought before the courts.

her and took a snap shot against her wishes. She sought the protection of Policeman McCormick, who told her that while he would not tolerate an insult to her, he knew of no law under which he could arrest a man for imperitnence. He and Mrs. Oeirichs returned to the man and gave him a severe lecture. The man said that he was from a New York newspaper, but refused to give his name.

He also made a snap shot, much to her disgust of Mrs. William K. Vanderbilt, Jr., who drew up to the sidewalk in her automobile to see her sister, Mrs. Oeirichs. This made musters very much worse. A large crowd of fashionables evidently sympathizing deeply with the two women gathered as they hurried off down the avenue in their automobiles.

An hour later Mr. Herman Oeirichs and Mr. W. K. Vanderbilt, Jr., appeared upon the scene and much to their surprise found the man still at the Casine entrance shooting his camera most audaciously at society women. The two men accosted the camera flend and expressed their indignation. Policeman McCormick again appeared on the scene. Mr. Vanderbilt dared the man to take his picture; Mr. Oelrichs scolded him severely.

The man's manner was not apologetic, and Mr. Oeirichs, growing more exasperated, kicked the camera out of his hands and smashed it into fragments.

There have been no arrests made and no complaint even made to the police.

Other, 'machine' men express the hope that when he returns he will remain long enough to unite the factions, but they admit that much of his influence in his party is already removed by the mere announcement that he prefers England to Massachusetts. That he has no intention of taking a more acrive part in the Presidental contest than he cid in 1896, has been known to his friends or a long time. He was preminently silent in 1896, owing to the free silver deciaration, and he is still more heartily optosed to imperialism as a paramount issue, being himself an avowed expansionist, than he was to the

TROUBLE AMONG CUBAN TEACHERS. Fistic Encounter Between One of the Teachers and an luterpreter.

CAMBRIDGE, Mass., July 28.-There was trouble among the Cuban teachers at Harvard this morning, as a result of which at least one teacher is likely to be sent back to Cuba at his own expense, and an interpreter has an eye to nurse. Special Cable Despatch to THE SUN. HAVANA, July 28.—Estes G. Rathbone, formerly Director of Posts of Cuba, was arrested to-day by order of the Judge of Intruction for the Northern District on four charges, involving about \$4,000.

The first charge is in regard to a draft for \$500, indorsed by Mr. Rathbone, for expenses of a journey around the island on Post Office business without any details as to how the money was spent. The second charge is in regard to another draft for \$500, indorsed by Rathbone, "for expenses to Washington or business." This also is unaccompanied by any details.

The third charge is that he allowed himself expenses at the rate of \$5 per day, after having received a letter from Postmaster General Smith in December last which raised his salary from \$4,500 to \$6,500 per annum, the prosecution alleges, and announced that the per diem

allowances would cease. The prosecution asserts that this letter from the Postmaster-General was an official notice. thre years befor her marriage. Mr. Quincy Rathbone says it was a private letter and did not cancel the original order which allowed him \$5 per day for expenses. Therefore he inferred that the allowance should continue. The fourth accusation is that Rathbone charged the salaries of his coachman and footman to the Post Office Department.

In regard to the first draft for \$500 Rathbone says that he never received the money and has no recollection of having signed for it, though he does not deny his signature. In regard to the second draft he admits having received the money in Washington, but paid it back in Havana and failed to get a receipt.

Bail was fixed at \$25,000. Sener Gamba, a Spanish merchant who has the reputation of being a wealthy man, offered to go on Rathbone's bond for that amount. The Judge, acting on the advices of the Fiscal, declined to accept this surety and referred the matter to Lieut.-Cel. Scott who is Acting Governor General. The latter had inquiries made as to the standing of Sener Gamba and as a result recommended that the Judge should accept the bond unless he had sufficient reasons for contrary action. The Judge again declined to accept Gamba as a bondsman because the other members of the firm of which Gamba is member had not given their consent to his going on the bond and Gamba alone had no ight to pledge the firm name.. Rathbone was thereupon removed to the Vivac.

MILE A MINUTE RIDE ON A CAR'S TOP. Lad Exposes Himself to Great Danger to Let His Parents know He's Alive.

WILKES-BARRE, Pa., July 28.-Clinging to a ventilator on top of one of the passenger reaches of the Lehigh Valley's Black Diamond Express, sixteen-year-old John Neumis rode ninety-five miles in ninety-five minutes yesterday and arrived safely. He was black with dust from head to foot, cut and blistered by flying bits of coal and his arms ached with the task of holding on. He took the dangerous ride to let his parents know that he was still alive. The boy left his home in North Scranton several weeks ago, and as time passed and his parents heard no word from him, they be-came alarmed. Finally some one started the

The boy was in Sayre yesterday when he saw in the papers his reported death and at once determined to get home as quickly at possible to relieve the anxiety of his parents lie had ne money, but went to the railway station to see if he could not steal a ride down here on a freight trade. here on a freight train, while waiting the Black Diamond steamed into the station. As soon as he saw it his resolution was made, Getting on the far side of the train, he managed to climb up on the top of a car unobserved. Throwing himself flat he clung to a ventillator.

The road winds along the river bank with many sharp curves. Exposed as he was, he received dust, smoke and cinders full in the face. The burning cinders from the smokestack cut and bilstered him, and the wind came near sweeping him off. At Towanda he could have left his perilous position, but he set his teeth and held on. At Tunkhannock he was almost exhausted, but he was only twenty miles from home. When the junction was reached he was so weak and cramped that for a time he was compelled to rest. Then he tramped the five miles to his home and greeted his people.

NOVEL WAGER ON BRYAN.

4 240-Acre Farm, a Cottage, Five City Lots

and 20 Indiana Gas Belt Lots Put Up. INDIANAPOLIS, July 28.—Charles W. Bridges & Co., real estate dealers of this city, have posted a novel proposition of the sale of farm and city property, which is practically a wager on Bryan's election. The firm announced that a farm of 240 acres, a cottage and five lots in this city, and twenty lots in the gas belt towns

this city, and twenty lots in the gas belt towns have been placed with them to be sold upon the following conditions:

The farm property is priced at \$5,000 for 240 acres, the gas be't town lots at \$125 each, the Indianapolis lots at \$300 each and the cottage at \$2,200. The deeds to all the property are to be made out and deposited by the owers with the cash paid for them. If Bryan is elected the ownership of the property passes to the parties putting up the cash and the money goes to the owners of the property. If McKinley is elected both the deeds and the cash are passed over to the person or persons who put up the money. Thus the property is sold at what is claimed to be itsfair cash value if Bryan is elected, and given away if McKinley wins. The real estate firm is a responsible one and declares that the offer is made in absolute good faith. The owners of the property are Bryan men, who are willing to back their judgment with their property.

POPE REBUKES THE KAISER. Hopes the Powers Will Not Resort to or Permit a Policy of Retaliation and Revenge.

Special Cable Despatch to THE SUN. LONDON, July 28 .- A Rome despatch to the Central News says an authoritative organ of the Vatican, in commenting on the speech Emperor William made yesterday in which he Paid Back \$500 Received on One Draft, told his soldiers who were to start for Chinn to give no quarter and take no prisoners, states that it is the earnest wish of the Pope and Cardinal Rampolla, the Papal Secretary of State, that the Powers shall not resort to nor permit

a policy of retaliation and revenge. The Pope has issued through the Cardina Vicar of the Catholic missions a letter which directs that general prayers shall be offered up in the Catholic churches throughout the world for the safety of the Christians in China The letter also expresses the hope that instead of motives of revenge the Almighty shall inspire everybody with thoughts of concord and peace which will prevent further ruin and massacre.

MASSACRE STORY REPEATED. Told by a Banker Who Says He Left Pekin on July 7.

Special Cable Despatch to THE SUN. LONDON, July 28 .- A despatch to the Daily Mail from Shanghai of to-day's date says the newspapers there publish a statement made by an influential banker residing in Pekin near the British legation, who left that city on July 7. This banker says the legations had then been destroyed and all the foreigners had disappeared. He was too frightened to inquire if they had been murdered. The banker has gone to Ningpo. He refused to disclose his name as he feared that he would be beheaded.

The manager of the Russian Bank at Shanghai has received a letter from the Newchang branch stating that one of their Chinese representatives from Pekin, who has just arrived there, confirms the stories of the massacre of foreigners. Although the man has been tortured, he refuses to change his story. He states that all the Ministers were murdered. As the Chinese swarmed in and the Ministers saw that death was inevitable, they killed their families. At the last moment, Sir Robert Hart, the Imperial Director of Maritime Customs, committed suicide.

TO TAX LIQUOR MEN OUT OF BUSINESS. Effort in Calais, Me., to Enforce Prohibition in a New Way.

CALAIS, Me., July 28.—Perhaps the most novel scheme in recent years to discourage the sale of liquor in some of the cities and towns of Maine has just been promulgated by the Calais city government. it was announced yesterday that each of the saloons had been valued at from \$2,000 to \$10,000 and that a tax had been assessed at the rate of \$24.50

had been assessed at the rate of \$24.50 at thousand.

This new method of doing business came like a thunderclap upon the heads of the men engaged in the liquor trade. While it was not said specifically that the men who are in the business would have to quit if they did not pay, that is the general belief. There are about twenty dealers in this city, and the tax as levied upon them by the assessors figures up to nearly \$2,800 on a valuation of about \$100,000, in addition to the Federal liquor tax and the regulation tax on their personal and real property.

The idea of making this tax is to do away, so it is said, with many of the places in town, and also to raise money to defray the running expenses of the police department. It has been said in this connection that the dealers will not be called upon to pay the fine usually imposed by the high court. by the high court.

Peter Reinhart, a carpenter, owns the house and lives with his wife and ten-year-old son on the first floor. Barry and Lutz went out for a pitcher of beer, and as they were returning Reinhart came home. He told them that he would not allow them to go to Miss McIntyre's room with the beer. They became angry and kicked in the door of Reinhart's apartments and knocked Mrs. Reinhart down.

Reinhart tried to defend his wife and was also knocked down. He got up, ran to a bureau drawer, took out a revolver and fired two shots. Barry was hit in the right side of the throat and Lutz was wounded in the chest. They were taken to the Norwegian Hospital, where it was said that Barry might die, but that Lutz's wound was triffing. Discovery of His Plan Said to Have Led the Empress to Support the Boxers. Special Cable Despatch to THE SUN.

Rome, July 28.-Count San Martino, the Italian Minister of War, who was formerly the of the Chinese situation in general and of affairs in Pekin in particular. He has not the slightest doubt that the advance of the allied forces on the capital will be the signal for a general insurrection in which the Yang-tse Viceroys

Count Martino says he has received from China the fullest proof of a plot organized by the mild young Empero,r who is tired of his condition of tutelage. It was arranged that he should leave the Palace at night, takerefuge in the British legation and there hoist the Imperial flag and proclaim the deposition of the

Empress Dowager on the ground of senile decay. This whole business was to have been managed by the Military Governor of Tientsin, who was to march upon the capital. But at the last moment the Governor turned traitor and the Empress Dowager, believing that all the legation were concerned in the scheme, commenced retaliation by patronizing the Boxers with the disastrous results now known. Count Martino is confident that this will be found to be the true explanation of the whole business.

EUROPE'S GRAVE FEARS.

Absence of Direct News From Envoys Increases Belief in Worst Reports.

Special Cable Despatch to THE SUN. LONDON, July 28.-Another week of contradictory rumors, all unworthy of credence, leaves the Pekin mystery still unsolved. The mere lapse of time without definite news increases the belief in European minds that only death will be found behind the veil when it

finally is torn aside. It must be admitted that there is no longer any confidence in the date of the first Chinese account of the massacre which fixed it on the night of July 6, and it is not regarded as improbable that some may have survived until several days later. The Chinese pretensions that all the Ministers, except Baron von Ketteler are still unharmed, is now universally dis-

predited in Europe. It goes without saying that Li Hung Chang's latest subterfuge and threat, namely, that the Ministers who still survive will be put to the sword if the Powers advance toward Pekin, has not the slightest influence in shaping the policy of any Power. Nothing which China can say or do will prevent the allies from marching to Pekin, there to exact reparation.

To-day's announcement from Washington of the policy of the United States in this regard has given great satisfaction to Europe. It is not that Europe needs or even wants American coperation, but all the European Powers are anxious to avoid the serious complications which might easily arise if the United States should pursue an independent policy, which might enourage China to wage war against Christendom in the hope that America would blunder-

ingly destroy the harmony of the Powers. It is becoming more evident every day how difficult, if not impossible, will be the task of conducting the joint military campaign, while the political obstacles will be still greater. The question of a commander-in-chief must be setwhether the diplomatic authorities will be more su cessful than the military representatives on the spot in breaking the deadlock. Pourparier on this point are now being exchanged, and the appalling suggestion is made that a conference at Paris will be necessary to settle it. It is discouraging, indeed, if a formal co ference shall be necessary to settle the command of punitive expedition which should be already

striking the first blow. The Kaiser's relentless speech of vengeance vesterday is causing some faint protests in this
